

# THERMO TECHNICA

## Truma type combi D6E, 6kw diesel and electric boiler complete kit

### Technical Specifications :

Rated Voltage	DC12V
Operating Voltage Range	DC10.5V~16V
Short-term Maximum Power Consumption	8-10A
Average Power Consumption	1.8-4A
Fuel type	Diesel
Fuel Heat Power (W)	2000 4000 5000
Warm Air Delivery Volume m3/h	287max
Water Tank Capacity	10L
Maximum Pressure of Water Pump	2.8bar
Maximum Pressure of System	4.5bar
Rated Electric Supply Voltage	~220/240V
Electrical Heating Power	900W 1800W
Electrical Power Dissipation	3.9A 7.8A
Working (Environment) Temperature	-25°C~+80°C
Working Altitude	≤1500m
Weight (Kg)	15.6Kg (without water)
Dimensions (mm)	510×450×300
Protection level	IP21
